Proposed internal alterations to Barbican Library  
to form a Community Room

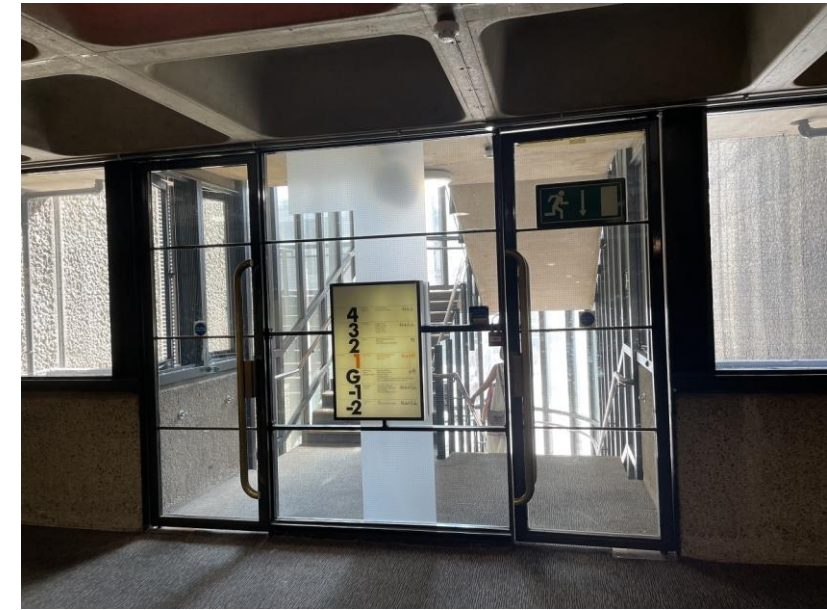

View from Arts Library looking across to returns/issues desk and down to Barbican Arts Centre Foyer

Existing door within Library formed in concrete opening, as proposed D04.

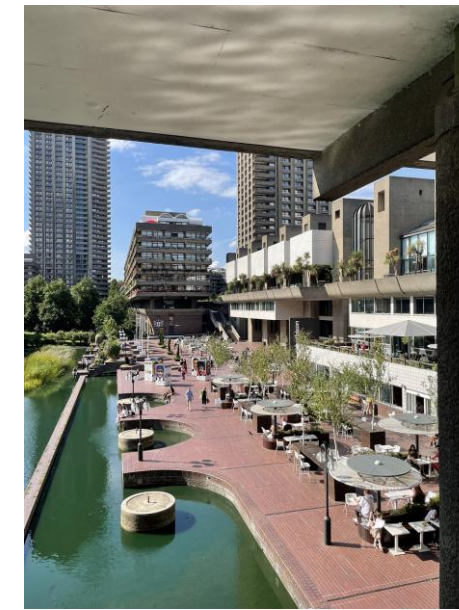

Existing Library exhibition space/foyer displaying 'Living Lineages' photography exhibition and solid, white display panels to metal screen behind. Door D02 to be formed in left hand panel.

Example of steel door to stair towers within screen, with continuity of glazing bars, as proposed door D01

Proposed location of new door D04 within existing concrete opening

External view of Barbican Centre, showing cantilevered floor to Barbican Library.

The existing area of soft seating and the proposed location of screen and door D05. The stainless steel tray is an ad-hoc internal rainwater gutter until the external waterproofing of the building is resolved.

View from Library foyer toward lift lobby. Door D01 to be formed in right hand panel.
